

EDUCATION	Ph.D. in AI, Paris-Saclay University <i>Advisors: Nicolas Anciaux, Cédric Eichler, Adrien Boiret</i>	Palaiseau, France 2024 - 2027
	M.S. in Mathematics, spec. in AI, Paris-Saclay University <i>Joint program with CentraleSupélec and École Polytechnique</i> GPA: 4.00/4.00	Orsay, France 2022 - 2024
	Double B.S. in Mathematics and Physics, Paris-Saclay University <i>Physics track joint with École Normale Supérieure Paris-Saclay</i> Mathematics GPA: 4.00/4.00, Physics GPA: 3,33/4.00	Gif-sur-Yvette, France 2019 - 2022
EXPERIENCE	Inria, PETSCRAFT Team, Ph.D <i>Advancing AI agent capabilities with a focus on safety and privacy.</i>	Palaiseau, France 2024 - 2027
	Niar, NCHC, Internship <i>Designed and implemented xGRU, inspired by xLSTM, doubling traffic forecasting accuracy and halving model parameters.</i>	Hsinchu, Taiwan 2024 (5 months)
	Exotrail, Internship <i>Designed and built entirely from scratch a full data pipeline for physics experiments, from raw data to automated analysis in minutes.</i>	Massy, France 2023 (5 months)
	CNRS, LMO, Internship <i>Enhanced numerical Fast Marching methods and improved statistical density estimation techniques.</i>	Orsay, France 2022 (2 months)
PROGRAMS	• MARS V, Cambridge AI Safety Hub • Technical AI Safety course, BlueDot Impact	2026 2026
GRANTS	• International Intern Scholarship, Niar • MixtAI Scholarship, Institut DataIA	2024 2023 and 2024
PAPERS	1. Lucas Biechy, Yuxiao Li, Zhonghao He, Tianyi Qiu: <i>Testing a Learner Changes It: Identifying Biased Self-Evaluation from Actions with Verifiable Probes</i>, preprint (2026) 2. Lucas Biechy, Yuxiao Li, Zhonghao He, Tianyi Qiu: <i>From Observation to Intervention: Identifiability of Latent User Bias in Human–AI Interaction</i>, BiAlign Workshop @ NeurIPS (2026) 3. Lucas Biechy, Christophe Rechdan, Cédric Eichler, Héber Arcolezi, Nicolas Anciaux: <i>PrivacySkills: How Privacy Guidance Shapes Source Selection in LLM Agents</i>, preprint (2026) 4. Lucas Biechy, Cédric Eichler, Adrien Boiret, Nicolas Anciaux: <i>Jailbreaks for Black-Box Uncertainty Quantification in Large Reasoning Models</i>, preprint (2026) 5. Chung-I Huang, Lucas Biechy, Jih-Sheng Chang, Chien-Hao Tseng, Jyh-Horng Wu, Wen-Yi Chang, Yun-Te Lin: <i>A Lightweight Recurrent Architecture for Robust Urban Traffic Forecasting with Missing Data</i>, IEEE OJ-ITS (2025)	
SERVICE ACTIVITIES	Visiting Trajan House (Oxford, 2026), UC3M (Madrid, 2025 and 2026) Thematic School Machine Learning Summer School (Columbia University, New York City, 2026) Workshops ELSA: Privacy-Preserving ML (Bertinoro, 2025), APVP (Chasseneuil-du-Poitou, 2025) Mentoring Interns (Christophe Rechdan 2026, Adam Gassem 2025), Academic Tutor (2023)	

Teaching Assistant Statistics (ENSTA Paris, 2026), Probability (ENSTA Paris, 2026)
Science Communication Mediation team of Inria (2024-2025)
Event Talks AI & Cybersecurity (Paris, 2026), Sovereignty & Entrepreneurship (Gif-sur-Yvette, 2026)
Organizing Research seminar for the Inria PETSCRAFT team (2025)
Doctoral Program Entrepreneurship (2024-2027)

SKILLS

Languages: French, English

Tech Stack: PyTorch, Scikit-learn, HuggingFace's libraries, React, TanStack, Supabase, PostgreSQL

Personal Interests: Sewing, Painting, American Football and the nerd starter pack (software engineering, blockchain, cybersecurity, etc.)
